

SOLID SURFACE & SOLID TIMBER BENCHTOPS

sentio
RENEWABLE SURFACES

ABOUT

The zero silica alternative to stone benchtops. Sentio Solid Surface Benchtops transform modern living spaces by embodying a blend of aesthetic beauty and practical advantage. Its renewable and stain-resistant capabilities, enhances its appeal and reliability making it the material of choice for kitchen, bathroom, and laundry areas.

For our Timber range go to page 8

FEATURES

Zero Silica

No risk of exposure to Silica dust during fabrication or installation.

Solid surface

Colour and texture runs through the entire thickness of the material.

Renewable and Repairable

If damaged, can be restored to original condition without needing to replace the full benchtop.

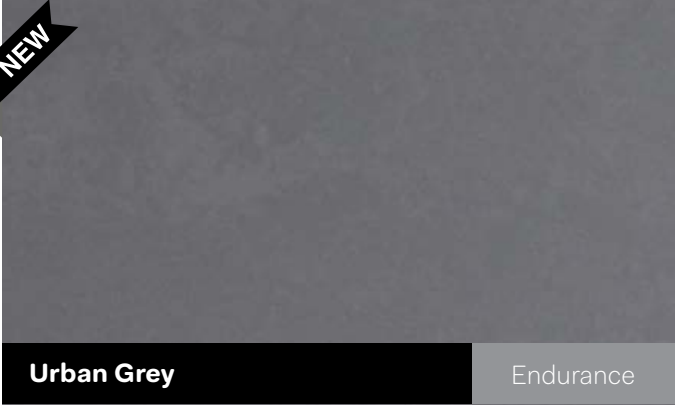

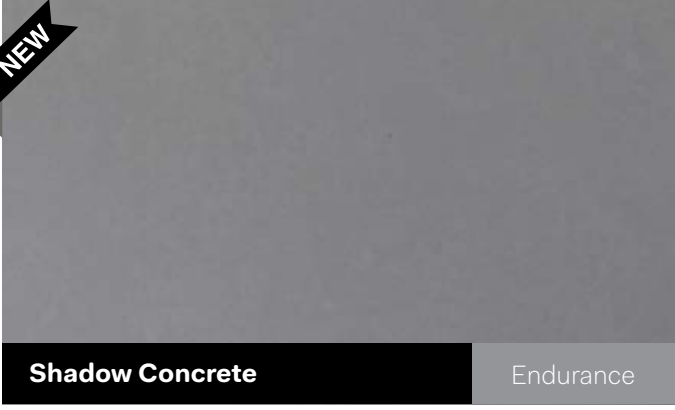

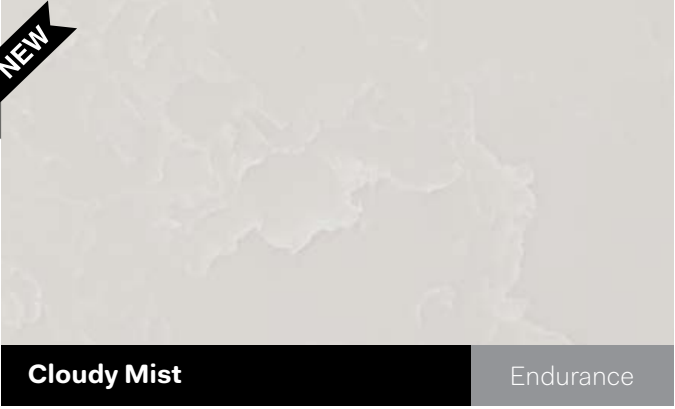

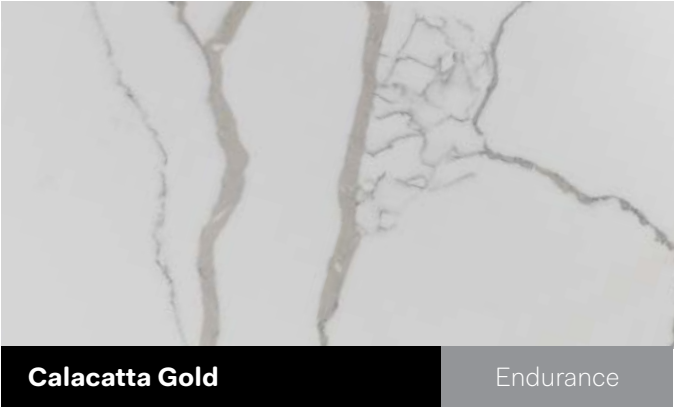

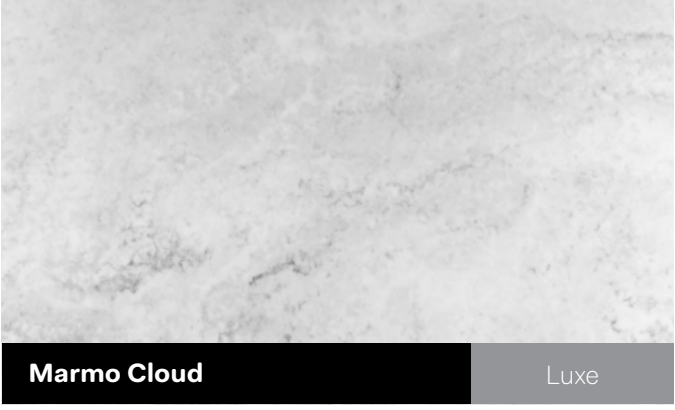

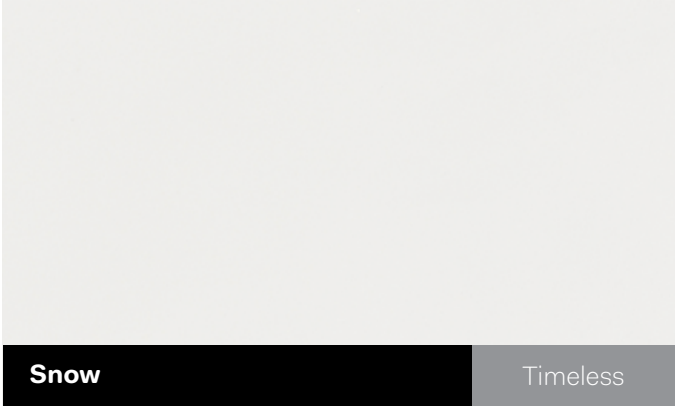

Stain resistant

Non-porous surface and therefore stains are never permanent.

10 year product warranty

COLOURS

Colours shown are a representation only and may vary from the actual product. Please see a physical sample before making your final selection.
Darker colours require extra care and attention to maintain their appearance.

TIMBER SPECIFICATION

32mm (+/-1mm) solid thickness with 42mm wide staves.

CUSTOM MADE OPTION

Custom made benchtop to your design with factory prepared joins that are ready to install.

RESPONSIBLY SOURCED

Sourced from responsibly managed forest.

RAW TIMBER SLABS

CASF Timber Modular Panels arrive ready to work—factory-square edged in raw finish and supplied in standard sizes. Simply sand lightly, seal with your preferred finish, then cut and install using standard tools. Easy, versatile, and ideal for kitchens, bathrooms and laundries.

FREE CUTTING SERVICE

- Up to 3 square edge straight cuts per order.
- Extra cuts available (additional fees apply).
- Excludes sink and cooktop cutouts.

Please note, the expansion and contraction of materials may affect the final component size (+/- 1-3mm from request). Allow for a 4mm waste per saw cut, reducing the size of remaining offcuts.
